

# PROJECT 4

✓ Published

Due before 12:00pm on Thursday, April 30. Our Final Exam will be to review the videos and critique portfolios between 2:00 - 4:00 p.m.

Create a music video for one of your projects this semester. You'll be able to do more with it if you choose something that you created yourself rather than a cover song.

Post your video on YouTube.

Create a new "Video" page in your Weebly.com portfolio. Embed your video there.

On your Video page in your portfolio, explain how you created the video, and add additional links, such as to the audio-only version of the music.

Include a screenshot showing your work in the video editor that you used to assemble it. As usual, put a caption under every picture so that visitors know what they are looking at.
